Affiliated to MDU, Rohtak  
Mission Road, Sonapat

Dr. Monika Verma  
Principal

## Curriculum Delivery Policy

### Introduction

\*This policy supports Teaching and Learning Policy, which outlines the approach of College in providing outstanding teaching and learning.

\*This policy document is pursuant to the requirements of the Higher Education which states that the college must ensure that there is "a written policy on the curriculum, supported by appropriate plans and schemes of work". We follow the curriculum which is designed by MD University Rohtak.

### Policy aim

\*The aim of this policy is to outline the College approach to the provisions of academic programs, the aims of those programs and the student cohorts for which they have been developed.

\*The policy also includes outline information about each academic program. Further details can be found by referring to the individual curriculum plans of the departments of the college.

### General principles underlying the policy

\*Academic Council of the College share and uphold the values and principles set out in Teaching and Learning Policy

\*Faculty of the College receive training, guidance and support, enabling them to contribute to the provision of outstanding teaching and learning at College, as set out in the group of policies and procedures that support teaching and learning practices.

### Aims of the Curriculum

The aims of our curriculum are:

- \*To support the students in their academic preparation for progression to higher education
- \*To individually support students in learning difficulties, where/when identified, drawing on internal and external expertise to ensure that the students' learning needs are appropriately addressed.
- \*To provide a safe and secure learning environment.

### Development

- \*To provide programme and subject choices that support students' learning and general

development, enabling them to progress and work towards achieving their goals.

\*To develop communicative, professional and study skills required to access and learning skills of the students and engender the resilience and independence required for further/higher education.

\* To stretch and challenge the enquiring minds of our students and encourage them to strive for excellence.

\*To enable the students to be creative and innovative.

\*To support the students' spiritual, moral, intellectual and physical development and to enrich their studies beyond teaching and learning.

#### **Attitude and outlook**

\*To promote a positive attitude towards learning so that all students enjoy coming to college and participate in the college activities

\*To inculcate awareness among the students in promoting respect towards society and each other through curriculum, extra-curricular programs, enrichment and charity organizations.

\*To promote inclusion and harmony among students of various cultures, and to engender respect for culture, heritage and spiritual beliefs and values, including the opportunities, responsibilities and experiences of life in the society.

#### **College students**

\*The majority of students hail from rural areas, entering the college for their further education.

\*As the students are, in general, intensely focused on getting higher education, university progression, we guide them to apply for the appropriate stream of higher learning so that they can develop their career.

#### **College programs**

\*College offers a wide range of educational programs to the students that enable them to acquire vital skills in literacy, numeracy, speaking, listening, research and presentation through a curriculum delivered in a variety of imaginative and inclusive ways (e.g. group projects, debates etc.).

\*The students follow a curriculum that gives them experience in the different fields which are not taught as discrete subjects. Students have access to accurate, upto-date and impartial career guidance and are counseled on their options for further education/career.

#### **Curriculum Revision**

Any educational institute has to review and revise its curriculum frequently to achieve academic excellence. As we are affiliated to MD University Rohtak, we have to follow the curriculum prescribed by University. University revised the curriculum after 7 to 8 years due

to following reasons-----

\*Curriculum revision may be required for reasons including, but not limited to, the following: Changing academic, industry, and/or community needs

\*Changes in pedagogy or instructional methodology

\*Changing needs of students

\*New directions and initiatives from government

If, sometimes, it is found difficult to incorporate a new course in the program, that particular course can be offered as certificate course and made it mandatory to the students.

The policy ensures that all feedbacks, which are relevant, are invited. It also ensures the protection of privacy and reputation of all stakeholders whether they are students' staff or alumnae. Suggestions are also invited to develop infrastructural and academic needs.
